NO TO ARTIFICIAL CHEMICALS

# Causes of Hair loss

- **STRESS & TENSION**
- **LOSS OF VITALITY**
- **SOCIAL ANXIETY**
- **LACK OF SLEEP**
- **DEPRESSION**

## Act Before you Lose...

Control of Hair loss are often challenging for a patient. The solution to these and other difficult situations is a new Platelet Therapy created from your own blood. Leukocyte Platelet Rich Fibrin (L-PRF) changes all the rules as it promotes healing and hair growth from within your own body. Unlike other treatments that use artificial components, Platelet Therapy with L-PRF uses only your own blood. With the simple blood drawn and an advanced technology protocol, L-PRF is individually made for you – from you. The end results are improved hair quality, significantly less recovery time and long term benefit.
